Special Concerns: \_\_\_\_\_

By the very nature of the activity, swimming carries a risk of physical injury. No matter how careful the student and instructor are, no matter how much supervision, no matter what swim aids are in place, the risk cannot be eliminated. Reduced, yes, but never eliminated. The risk of injury includes minor injuries such as scrapes, bruises, and burns, and more serious injuries such as broken bones, dislocations, and muscle pulls. The risk also includes, and always includes, drowning and catastrophic injuries such as permanent paralysis or even death from landings or falls on the back, neck, or head.

**Adventure Scuba** is a retail store that primarily caters to adults. We ask that you respect this by entering the swim class through the side door. If you are not actively shopping in the store, please refrain from entering the store. This includes talking on your mobile phone. The store can be a dangerous place for your children to run free and much of the equipment is very expensive. We must remind you of this policy if we observe non-compliance. This is for the safety of your children and respect of those people who are shopping in the store.

Restrooms, lockers, and a changing area are in the swim pool area.
